# BD-WS400 Economical Brushless Car Wash

## Main Feature

BD-WS400 economical brushless car wash is designed and manufacture with advanced American technology. Its structure is compact. The area it needed is small and it is with functions of high pressure water rinsing, spraying foam agent, spraying light wax and so on. This economical brushless car wash has a good adaptability for washing site, low price and easy to maintain, which is an ideal choice for a small car wash and beauty center.

The structure of BD-WS400 car wash is double rotating arm, and can wash cars all-round. As the small areas it needed, it is suitable for the wash room which the width is enough but the length is short.

## Technical Data

Model	BD-WS400
Machine size (L×W×H)	6000×4000×2800mm
Wash size (L×W×H)	5200×2000×2000mm
Bay size (W x L)	4000×8000mm (Standard)
Power supply	3PH 380V 50Hz or 208~220/460V

## BD-TX380 Tunnel Car Wash

**Bond Tunnel Car Wash** is used to carry out the hi-pressure wash, agent wash, brush wash, wax, drying and polishing for the surface of cars and various minibus. After a vehicle is sent into the wash room by conveyor, it first rinses away tiny grit and dust attached on the car completely by high pressure water, and then wash all-round the car by spraying foam and several sets of special wash brush, and finally it uses high pressure blowers and three sets of special polishing brush to dry and wipe the car, which makes the bright surface of car like a new one.

### Main Feature

1. Professional washes for cars, jeeps and all kinds of minibus.
2. Adopting advance technology and full module design, which can be combined to more than ten different functions for different needs.
3. The main electrical components are imported from famous foreign factory, which can ensure safe and reliable.
4. Unique fault self-testing system.
5. Adopting the most advanced wash brushes which can wash completely.
6. The transparent glass shape which is luxurious.
7. Touch panel control screen is easy to operate.
8. Adopting the advanced high pressure system.
9. High pressure pre-wash, agent wash, brush wash, spraying wax, drying and polishing in one turn.
