

Acua Flexible Interior Paint 402408

Water-base flexible paint is the product of choice for the re-colouring of leather items including car seats and leather furniture.

This water-base system provides good flexibility, durability and adhesion.

Also supplied as part of the IMAGE leather repair system, these Water-base paints are supplied with Poly-Tops for ease of dispensing. Colours in the range can be inter-mixed to achieve the colour of your choice.
